

# SP8600

- Compact heavy duty machine for high demand production of wire-, cable and component marking.
- Enables on-site marking production.
- Faster, improved print.

## General information

SP8600 is a complete marking production machine unit with automatic feeding of marker profile, printing and partial or complete cutting function.

The machine is controlled by either a connected PC with Partex software WinSign or an optional standard computer keyboard working as a stand alone unit. USB flash memory as option.

### Sleeve Length

0 mm to 999.9 mm. No limitations when using WinSign software.

### Diameter Range

I.D. 2.0 mm to 28 mm (or flatly folded width 45 mm).  
0,2mm to 0,7 mm in thickness

### Cutting

These choices are available:

- 1) No cut,
- 2) Partly cut off
- 3) Completely cut off
- 4) Settings mode

### Marking data from Winsign

Marker data files created directly in WinSign and transferred to SP8600. Data from other software transferred as text files only to WinSign and then into the machine

## Technical information

- Print: Thermal transfer print  
Print resolution: 400 dpi
- Product capacity: about 4900 pcs per hour  
(5 digits, 1-line marker, on 20 mm long sleeve)
- Character sizes (HxB) and orientation  
2,4 x 2,4 horizontal and vertical  
2,0 x 1,2 horizontal and vertical  
3,0 x 2,4 horizontal and vertical  
5,0 x 3,0 horizontal  
1,8 x 1,8 horizontal and vertical  
1,8 x 0,9 horizontal and vertical  
2,7 x 2,1 horizontal  
2,4 x 1,2 horizontal and vertical
- Kind of characters  
96 characters: 0- 9, A-Z, +, -, /, \*, & sings etc
- Data storage  
Max 1000 lines can be stored in the memory & max 1000 lines/bank x 8 banks in extended memory.
- Power supply: 110 - 240 VAC, 50/60 Hz.
- Dimenstions: 432 (W) x 280 (D) x 302 (H) mm.
- Weight: 12 kg
- Connection: USB port x 3
  - a) keyboard
  - b) USB flash memory (option)
  - c) PC, for control via software
